

MJC&S Early Childhood Center

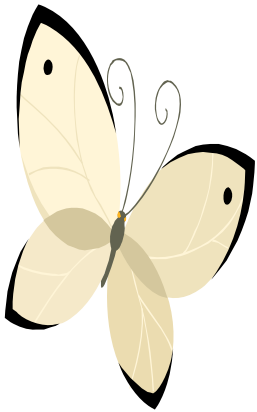

Dear Preschool Parents,

It is with great enthusiasm that we begin registration for the 2010-2011 school year.

September 7th we begin our year with a meet and greet.

September 13th First day of school. (following Rosh Hashanah)

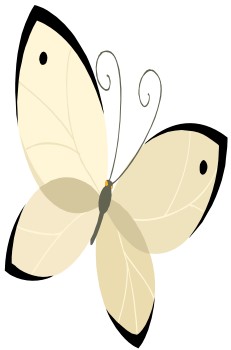

Malibu Jewish Center and Synagogue offers an outstanding program for children ages 2 through 5 years old. We provide a safe nurturing environment that encourages the use of the child's imagination. Our student-teacher ratio allows for more individual instruction creating a special bond. Open and creative classrooms reflect our unique mixture of Reggio, a progressive curriculum model and developmental learning philosophies, within a rich Judaic environment.

Our primary goals are to develop each child's individual potential, promote positive feelings towards learning, and to stimulate learning in all developmental areas: social, physical, emotional and intellectual. Our indoor-outdoor classrooms, takes advantage of our natural environmental setting which will providing your child with hands on experience and encourage inquisitiveness.

Our fabulous teachers inspire, respect, challenge, engage, listen, observe, encourage and nurture our children.

Please feel free to stop by anytime. We encourage an open door policy because we know parents are part of the learning team.

My door is always open. Feel free to call or email me.
Shalom,

Lauren Abramowitz
Director of early Childhood Center
